## Mirror Image

Activity Sheet B

Finish these three designs. Which has bilateral symmetry? Radial symmetry? Sliding symmetry?

Make some symmetrical designs of your own. Try all three types of symmetry.

12

### Symmetry

Tell whether the dotted lines on each shape represent line of symmetry or not. Write YES or NO.

Draw a line of symmetry on each shape.

Draw the other half of each symmetric shape.

## Snowflake Symmetry

Complete the snowflake

Activity village

### LINE SYMMETRY SHEET B

Use the 2 mirror lines to complete the rest of these patterns.

The line of symmetry is always a vertical line of the form  $x = n$ , where  $n$  is a real number. Learn how to use a graph or equation to find this line. Draw lines of symmetry of capital letters. Draw the second half of symmetrical letters.

3° to 5° degrees Also on superteacherworksheets... geometry worksheets Learn about lines, angles, polygons solid shapes, circles and more! Time worksheets Practice reading watches and counting time. Rounding worksheets Numbers rounded to the nearest tens, hundreds and thousands. Images from our worksheets CC0/mohamed hassan/Pixabay A personal credit line can be an important financial tool, but it is usually only available to people with generally sound finances, including a high credit score. Jose CamAÁpes Silva/Flickr/CC BY 2.0 Find the line of symmetry of  $y = x^2 + 2x$  with 3 steps. Each parabola has a line of symmetry. It doesn't leave any income out, although it's not the main way to make a living. Paying high credit card balances will help you improve your score. CC0/TheDigitalWay/Pixabay

Donate Closing Credit Cards The other side of the credit-to-debt relationship is that you must close your credit cards once you have them paid. The line of symmetry (for any quadratic function) is always  $x = n$  because it is always a vertical line. If you apply everything on the same day, this will do less damage to your credit score because it will be interpreted as a single credit application instead of multiple different things. CC0/Free-Photos/Pixabay All Revenue Report The more revenue you have, the better it will appear potential lenders. Also known as the axis of symmetry, this line divides the parabola into images. Things like identity theft can make your score take a dramatic turn and out of the blue for the worse.
